Double clic sur le Step-link du Pas 1

The screenshot displays the 'Controls' menu in the game 'Star Wars Jedi: Fallen Order'. The interface is divided into several sections:

- Top Left:** A vertical column of controls for the left stick, including 'force Doo', 'fix Doo', and three empty slots. Below these are directional buttons (up, down, left, right) and a 'P1' button.
- Top Right:** A 'Sample' section with a 'COM' dropdown, a red and white color bar, and buttons for 'FF' and '0'. Below this is a 'Black' button.
- Middle Left:** A row of 10 'FLASH' buttons, each with a 'PAUSE E' and 'noGUN S' label. Below these are 10 buttons labeled '0' through '10'. At the bottom of this section are buttons for '1', '2', '3', '4', '5', '6', '7', '8', '9', and '10'.
- Middle Right:** A 'SCENE' section with a 'FF' button. Below it is an 'ALLSUB' section with a 'FF' button. Further down is a 'FLASH' section with a 'FF' button. At the bottom of this section is a 'JOYSTICK' section with a '50' button.
- Bottom Left:** A 'PAGES' section with a '1' button. Below it is a 'BOOK' section with a '1' button. At the bottom of this section is a 'RecMoo' button.
- Bottom Right:** A 'Balance' section with a 'Refresh' button. Below this is a 'GRAND' section with a 'FF' button. At the bottom of this section is a 'MASTER' section with a 'MIDI SWITCH' button and a '1' button.

Step Link Editor

Create SLink

StepLink for step : 1

one can use Left/Right arrow to move in step

osc

address must be prepended by /
arguments must be prepended by @ and their type (ex: @i = integers, @f = float, @s = string)
example: /this/address @i 1 @i 255

Curves

channels or outputs should be separated by /
channels are defined by prepending @
(TRHU) > can be used for channels AND outputs

No.	Function	Type	Parameter
-----	----------	------	-----------
